

GETTING TO KNOW

NATIVE PLANTS AND NEIGHBORHOOD POLLINATORS

WILLOW/ PARK/ VALLEY VIEW SCAVENGER HUNT

Directions: Walk around Park, Valley View, Willow, and Spruce looking for wooden markers identifying native plants. You will find them along the sidewalk with chalk drawings of pollinators in the front yards of houses. For the answers, bring the completed form to the table at the corner of Willow and Valley View between 10-2 for your pollinator craft-kit prize. Or if you complete later, email your answers to dmonahan30@gmail.com with your address and we will deliver it.

1. Name two pollinators you saw at work during your walk.
2. What flower rings by the front steps of the house with the giant red Toucan?
3. Which flower is most likely to root for the stars of the Patriots?
4. At what address can you find orange cone flowers?
5. What other color of cone flowers can be found on Park?
6. What is the Latin name for Golden Ragwort?
7. Which native plant is most likely to be found in Spider-man's garden?
8. What native plant's leaf looks like the footprint of a tiger or other big cat?
9. Where can you find the Monarch Waystation?
10. What plant do the monarch butterflies have to eat at the Waystation?
11. What native plant is growing around the pink flamingo on Park?
12. In Bird Head Garden, what wild flower name sounds like it belongs in your pantry?
